

IIM Skills Testing & Training Facilities Paranaque, Manila

Opened in 2009, IIM provides modern, spacious and well-equipped training and meeting facilities to help international businesses source skilled labour from the Philippines.

Our Centre

Clients can use the centre for all steps of the recruitment process from interview, short-listing and skills testing through to skills training and safety induction—all at one convenient location.

Paranaque is located only 45 minutes from Manila's Makati commercial district.

Services and facilities:

- **Interview, meeting and conference rooms equipped with Skype and hi-speed Internet connection**
- **Skills testing of candidates**
- **Skills training to the relevant country standards**
- **Safety training**
- **Inductions tailored to suit clients' needs**
- **English or other language testing and tuition**
- **Cultural awareness training**
- **Onsite accommodation and catering for candidates**

All training courses are tailored to meet the individual needs of clients.

IIM can also take care of transport to and from the centre, book accommodation and provide an airport meet and greet service.

IIM advantages

By undertaking necessary skills testing and training in the Philippines, clients can be confident that their new recruits will be 'work ready' prior to their mobilization to Australia. This offers great cost and time savings, as well as guaranteeing a candidate with the right skill set to match their new role.

Who can use IIM?

The facilities for skills testing and training are available to international companies seeking to interview, test and/or train candidates prior to employment and relocation.

Clients have the option of providing their own trainers, or IIM can arrange for Australian Registered Training Organisations (RTO) to conduct training tailored to each client's needs.

Skills testing and training

Facilities are available for skills testing in a wide range of light and heavy construction and engineering trades including:

- **Mechanical fitting**
- **Welding**
- **Sheetmetal Workers**
- **HD Diesel Mechanics**
- **Auto Electricians**
- **Carpenters**
- **Chefs**
- **Restaurant Managers**

IIM can also organise English diagnostic testing and provide English coaching to prepare candidates for International English Language Testing System (IELTS) tests.
