## Accommodation

### HOMESTAY

Home-stay is a major part of the study tour experience and gives the student a perfect opportunity to experience the Australian way of life. As host families speak English at home, it offers students to practice the language in everyday situations. Get the most out of your travel and study experience with a family in Australia and experiencing the lifestyle first-hand. All of our home-stay families are welcoming, they offer comfortable and clean accommodation to all individuals on the tour.

Accommodation is located close to the universities and schools, making it easy for students to travel to and from their study tour. Meal packages are available upon request, please discuss dietary requirements with us so we can prepare in advance. If a student becomes unhappy with their host family, we will do what we can to resolve the situation and find them alternate accommodation if necessary.

### HOTELS

We can arrange for accommodation at premier Australian hotels to suit the needs of our clients. The hotels provide luxury world-class services.

## SAMPLE PROGRAM: ONE OF OUR CUSTOMISED PROGRAMS

### Integrated School Study Program for Overseas Students and Cultural Excursions.

#### All about being at school

We always aim to enroll students into top schools, universities or college. For this School studytour program, our group of students were supposed to study with local students and experience the study culture of Australia. Each student was buddied up with a local student to accompany them during their school period. The school buddies take students on campus tours and accompany them to their class. School buddies we provide are based on the background information of students like their favorite subject, their age, hobbies and other helpful qualities.

#### About the excursion activities

At PGS, we also believe that students also require outdoor education. So our entire study tour is combined with various excursion programs. These Excursion activities help the students experience international lifestyle and culture. Excursion activities are always planned based on the age group of students and as per requested. Some excursion activities offered are for instance, Visit to Swan Valley, BBQ party at a park, Mine visit, many others similar activities.

*"Australia is a fascinating country, from its mesmerizing landscape to its beautiful people. I had the pleasure to visit the city of Perth along with Perdaman group and St. Stephen's school for two weeks. Our students were captivated by the immense diversity of wild life that WA presents. Moreover, our students had the chance to tag along with their buddies arranged by St. Stephen's which made the cultural experience significantly rich. I want to thank Perdaman for their care and hospitality, and I would also like to thank St. Stephen's school for their commitment towards international students and their dedication to empower students to grow not only academically but also personally and spiritually. "*
